Skills

- HTML,CSS,JavaScript
- C/C++, Java
- SQL, MySQL, Firebase, MongoDB
- ReactJs, NodeJs, React Native
- Bootstrap CSS, Tailwind CSS
- Time Management
- Teamwork
- Critical Thinking

ARYAN ADHAV

Junior Software Developer

Persuing B.E in Information Technology

Work experience

Krushimandi Innovations Pvt. Ltd.

June 2025 - August 2025

Frontend Developer Intern | Krushimandi Innovations (3 Months)

Worked on developing and improving mobile application interfaces using React Native. Integrated backend services with Firebase and Node.js to enable real-time data handling and smooth user experiences. Gained hands-on experience in full-stack development, debugging, and collaborative project workflows.

ShovelTech Solutions Pvt. Ltd.

December 2025 - April 2026 (currently persuiing)

Working on developing and enhancing web applications by contributing to both frontend and backend development. Implemented responsive user interfaces and integrated backend APIs to build full-stack features. Participated in project-based development involving debugging, feature implementation, and optimizing application performance. Gained practical experience in software development lifecycle, problem-solving, and collaborative development workflows.

Education

Dr. Mrs. Erin N Nagarwala Day School

Schooling (1st -10th std) Marks - 83%

Diploma in Computer Science 2021-2024

at JSPM's Bhivrabai Sawant Polytechnic, Wagholi
Marks - 90%

B.E in Information Technology 2024 - Present

at JSPM's Jaywantrao Sawant College of Engineering,
Pune (JSCOE)
Last Sem CGPA - 8.4

Projects	Project Description
2] Library Management System <u>Tech Stack used :-</u> ReactJs , CSS3, NodeJS, ExpressJS, MongoDB Atlas Github - https://github.com/AryanA2323/ADBMS-Mini-Project	Library Management System (LMS) is a comprehensive full-stack web application built with the MERN stack that streamlines library operations through complete CRUD functionality, advanced search capabilities, and book borrowing management. Designed with a modern UI/UX and cloud-based MongoDB Atlas integration, it offers efficient book management with real-time data synchronization.
3] Krushimandi Admin Panel <u>Tech Stack used :-</u> ReactJs , Material UI , NodeJS, React Router , ExpressJS, Firebase Firestore Github - https://github.com/AryanA2323/ADBMS-Mini-Project	Krushimandi Admin Panel is a comprehensive administrative dashboard built for Krushimandi Innovations Pvt Ltd during my internship. This full-stack web application enables efficient management of an agricultural marketplace platform, handling farmers, buyers, fruit listings, orders, notifications, and feedback with real-time database synchronization.
4] Video Summarizer and Quiz <u>Tech Stack used :-</u> Gradio, Custom CSS, JavaScript,Python, Fast API. YouTube Transcript API, pandas, Numpy Github - https://github.com/AryanA2323/ADBMS-Mini-Project	Video Summarizer and Quiz Generator is an AI-powered educational platform that transforms YouTube lecture videos into concise summaries, interactive quizzes, and personalized Q&A sessions. Built with Gradio and Google's Gemini AI, it helps students learn smarter, educators assess better, and makes digital learning more engaging and effective.
5] MediSense AI <u>Tech Stack used :-</u> React + Vite,tailwind CSS,Firebase,React,Python 3.13 + FastAPI,Tesseract.js 5,scikit-learn,OpenFDA API ,OpenStreetMap API Github - https://github.com/AryanA2323/ADBMS-Mini-Project	MediSense AI is a full-stack AI-powered healthcare platform that provides instant symptom analysis, medicine identification, an intelligent health chatbot, and medical facility discovery. Built with modern web technologies and a custom machine learning model, it offers 100% free healthcare information access without API limitations.
